

FAC 530.6 Coordination of Professional Development Events

Coordinator of Professional Development: A faculty member with one three-hour course release time for the academic year to direct, promote, and facilitate formal and informal professional development events.

A short term Teaching Effectiveness Task Force (consisting of one representative from each division) will meet each spring to determine topics. The Task Force may participate in recommending presenters for the following academic year.

Professional development monies will be allocated to fund the formal professional development events and underwrite the cost of food for the informal professional development events.
